system design

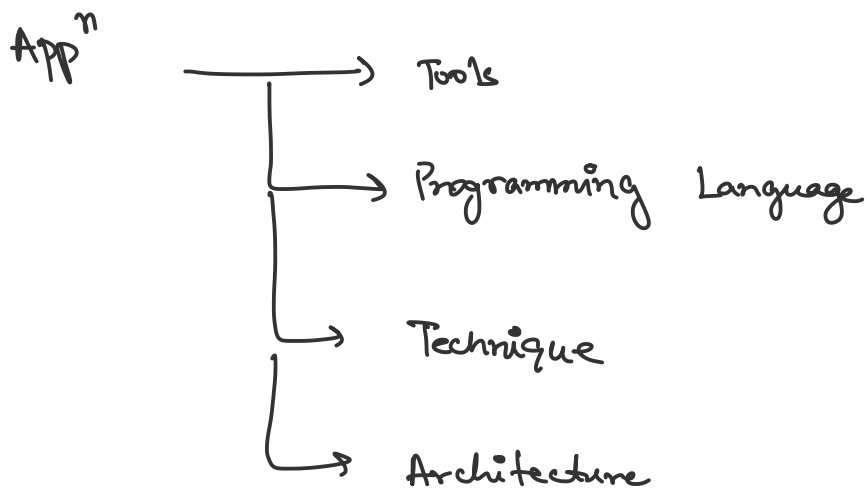

Helping the users
in the real
world.

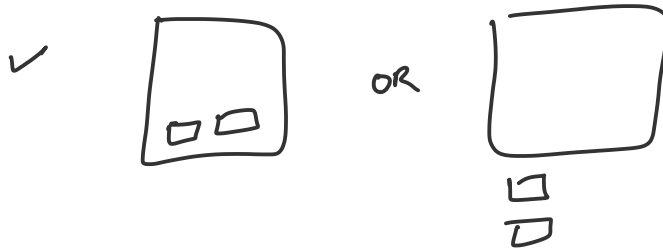

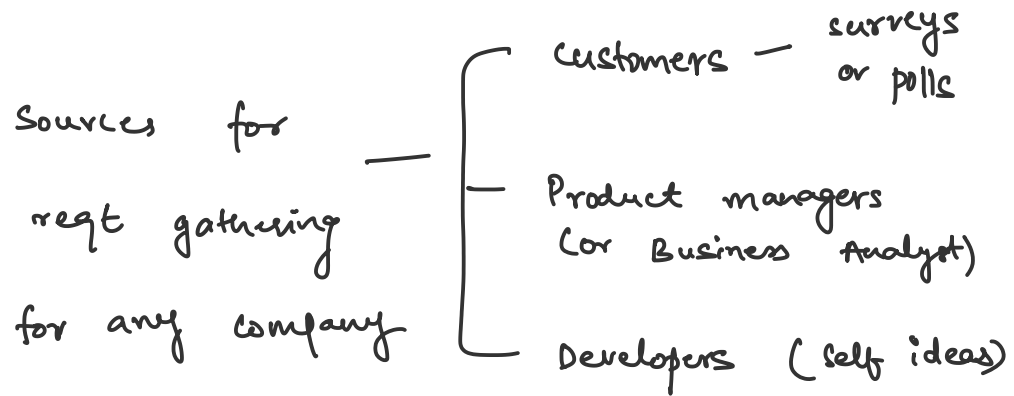

steps to build an appⁿ

Steps involved in building any project/

appⁿ

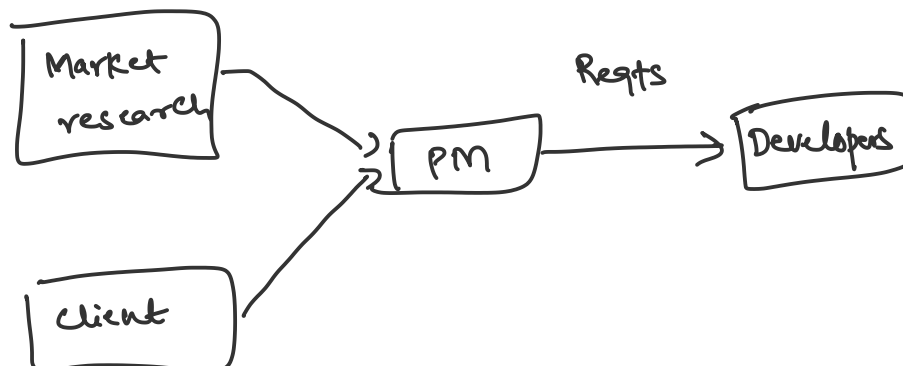

1. Requirement Gathering

URBAN COMPANY

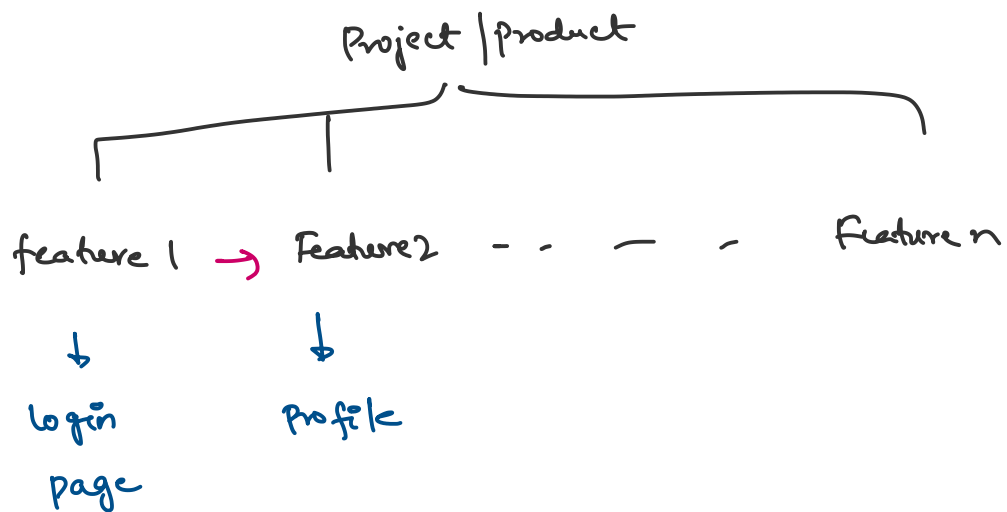

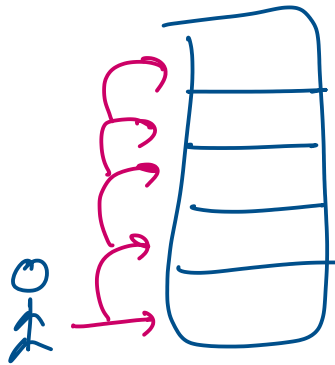

provides you
various services

① Req gathering

② Scope

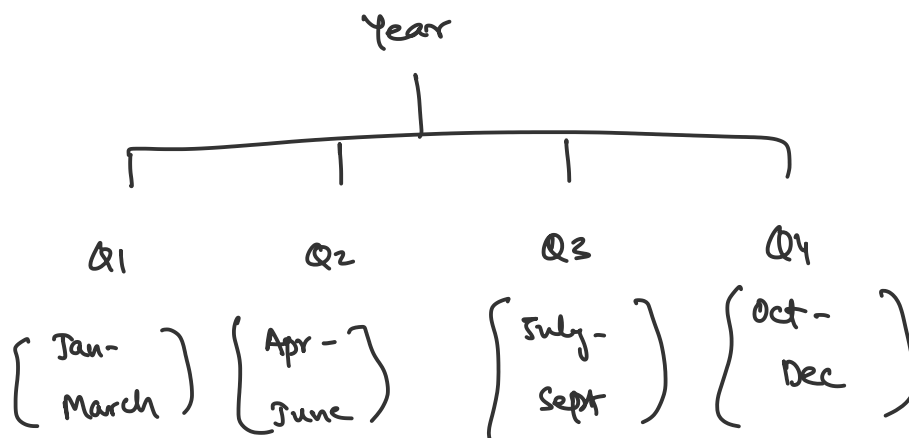

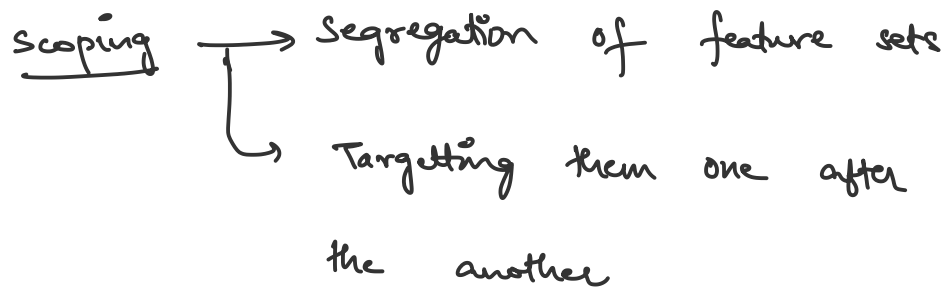

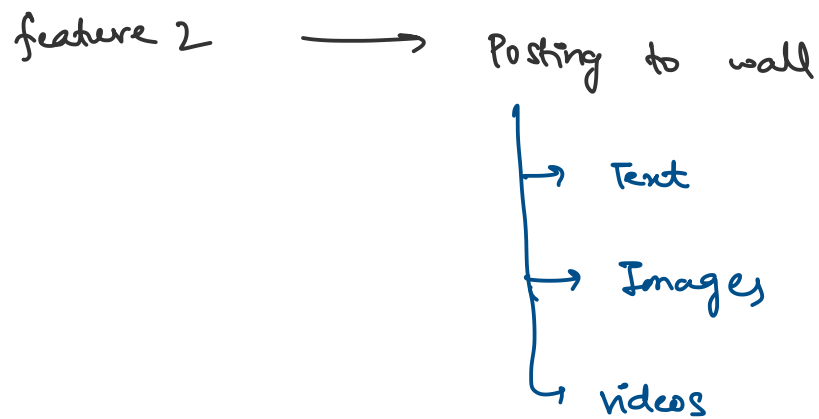

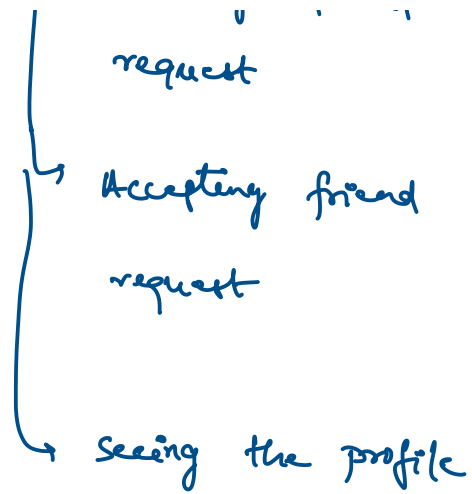

order needs to
maintained

Eg -

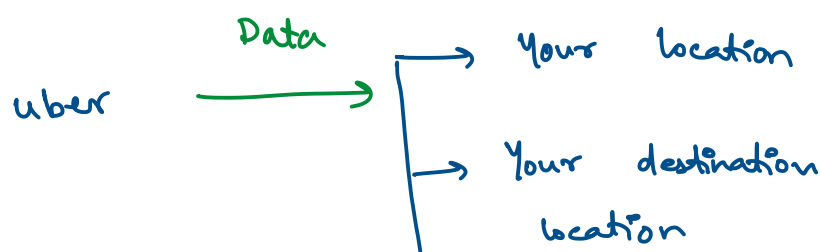

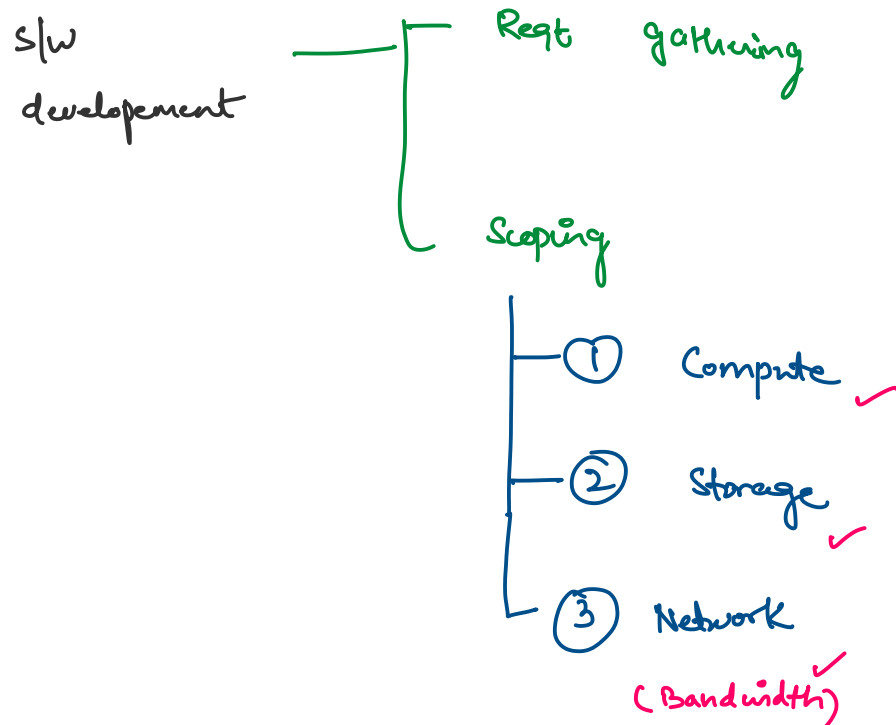

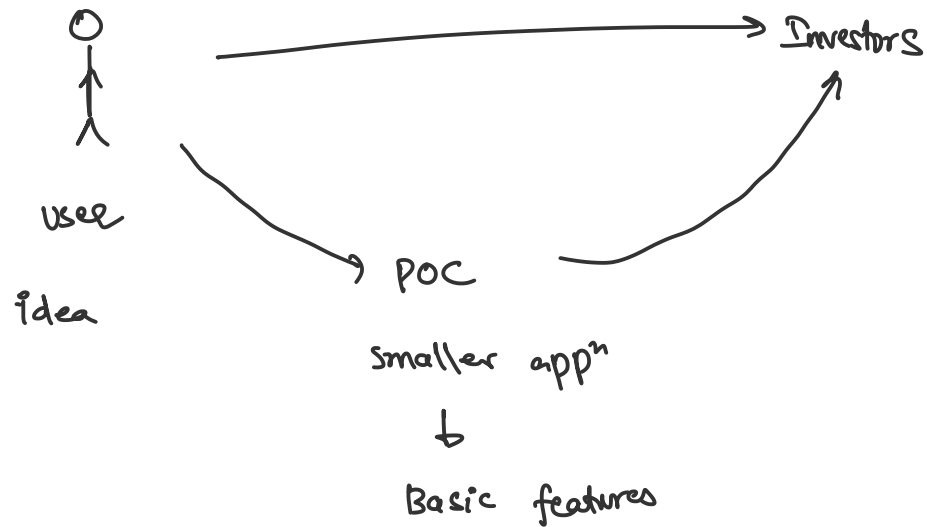

Facebook → version 1

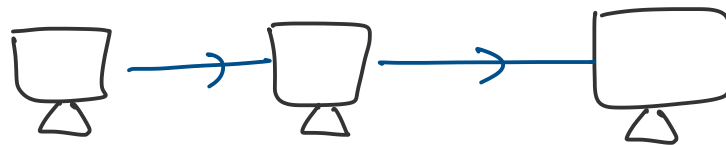

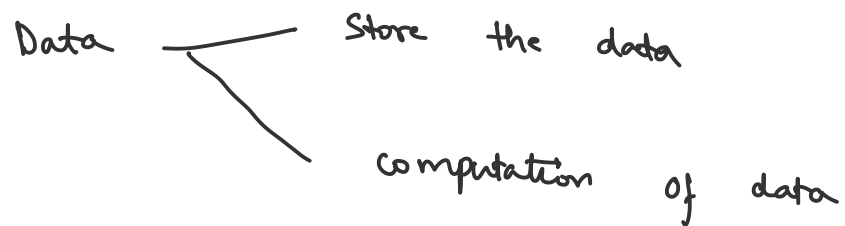

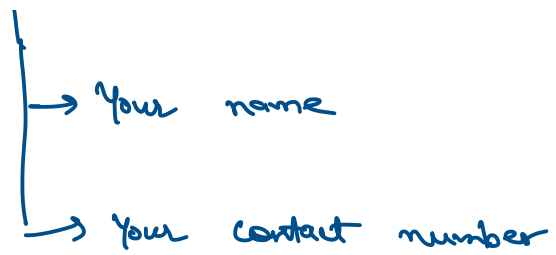

feature 1 → Add friends

→ Sending friend

MVP - Minimal viable Product
 ↳ POC - proof of concept

Same network or
different network
